WHY HAVE I CHOSEN THIS MOVIE ?

I chose this film because it traces the life of a man devoted to his country, for me war films are films that take us into the history of humanity. The main characters are Chris Kyle, "the legend" by his soldier friends, Taya Renae his wife, "the butcher", and Mustafa. This film is set in the United States and Iraq when Chris Kyle goes on a mission between 2003 and 2009 to defend his country. At one point in the film there is a scene which shows that Chris Kyle's father teaching his children how to be mentally strong. This influenced him therefore he does not give up without being a naughty person, and he keeps

his commitment to unity the SEALs.

WHY DO I RECOMMEND IT

I would say that if someone likes movies where we follow the story of a person during his life and in addition that he likes war movies, it is this movie that he needs! I think it's an extraordinary film with an incredibly realistic reconstruction. It shows the conditions and also the effect of the war on the soldiers.
