THE PLOT:

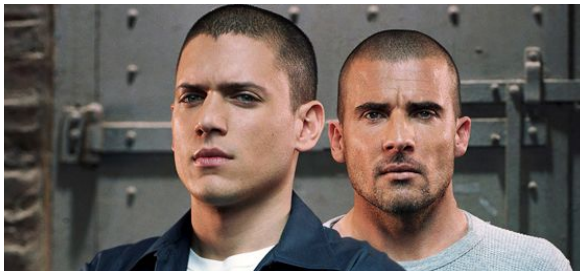

In this series Michael Scofield, an engineer, sees his brother charged of the murder of the Vice president's brother. WHY WATCH PRISON BREAK?

I really like this series because in each episode there is a lot of suspense, which enables us to hang to the serie. Moreover, this series take place in the prison system that many people don't know. It's also interesting to discover the prisoners' life. Michael Scofield is very endearing because he is very intelligent and he shows us what he's ready to do for his brother.
